Programming Assignment #1

Vector Addition

Date: __/__/2015	**Due**: __/__/2015
Grade: 100 points	**Hard Deadline**: __/__/2015

Write a CUDA program that implements a simple vector addition kernel and test your code using an implemented CPU version.

Submission Instructions:

➢ Submit your program to CSE327_CUDA@gmail.com before deadline. Answers submitted due the hard deadline will get only %80 of the grade.

➢ Subject of message must be { **CU_PA1** }

➢ You must use the given templates while writing you programs.

➢ Attach your code files only; don't include any documents or pictures.

➢ Any violations to previous Instructions will cause your assignment to be rejected.
